

# NEVER BURN

with Gas, Diesel or Kerosene!

**GASOLINE**  
can have the  
same  
explosive  
power as  
dynamite.

## FUMES:

- Are extremely flammable!
- Spread quickly!
- Are invisible!
- Stick to your clothes!

- **Store flammable products in a well-ventilated area, outside the home.**
- **Containers should be approved and well-labeled.**
- **Always keep flammable materials away from children.**

MORE THAN  
**200**  
PEOPLE  
ARE BURNED

each year in Arkansas from simply burning trash, leaves or brush!

MORE THAN  
**25%** of these burns will require admission to the Arkansas Children's Burn Center for treatment.

## BURN SAFELY.

- Only burn DRY material. Smoke means dampness.
- Outdoor fires MUST be away from buildings, fences, overhead wires and trees.
- DO NOT light fires on windy days!
- Check BURN BANS with your local fire department.
- Have a bucket of water or garden hose at the ready.
- Keep children and pets away.
- Put the fire completely out before leaving it.
